Notes & Details

This Avantco IC1800 countertop induction range delivers superior usability and performance for all your cooking needs! Perfect for use in omelet stations, catering services, display cooking, and other light-duty applications, this induction unit is safer than conventional countertop ranges since there's no open flame or exposed burner. And thanks to its innovative technology, this cooker heats up in as little as one minute. Plus, this range boasts a sleek, stainless steel design for a professional look that will impress your guests, while being easy to clean.

For added convenience, a built-in 180 minute timer allows you to keep track of your culinary creations, and you can cook using a wattage or temperature mode that ranges from 140 - 460 degrees Fahrenheit. And thanks to its multiple heat levels, you can be sure you'll have the ideal temperature for your most popular dishes. This induction cooker is compatible with induction-ready pans that have a bottom diameter between 4 3/4" and 10 1/4". For added convenience, the cooker enters "standby" mode when the pan is removed from the surface. This unit requires a 120V electrical connection.
