## Notes & Details

Sure to become the new hot-shot in your kitchen, concession stand, or convenience store, the Avantco QuickShot QS-1800 tortilla / portion steamer is an impressive countertop unit that blasts an instant 212 degree Fahrenheit stream of steam with the touch of a button. In a convenient, compact footprint, this steamer does everything from steam pitas and melt cheese to reheat pre-cooked food for quick service. Such versatility proves invaluable in facilities with limited space. Plus, because it preheats in 25 minutes, it's easy to turn on prior to opening and have ready for the first rush of customers. Taking only 30 seconds to make food deliciously hot and fresh, this steamer helps you provide customers with great food fast!

To accommodate steaming and reheating, the unit accommodates a 1/2 size food pan (sold separately) and offers a 4 qt. capacity. It uses an independent 3 qt. water reservoir for its steaming function, making it easy to fill and maintain throughout the day. Since the well is cast aluminum, you can also be sure that the steamer is efficient in its operation and conducts heat with ease. This unit comes equipped with a cool-touch handle to maximize worker safety. Flip the simple on/off rocker switch for power, fill with water, preheat, and then start using this unit for freshly steamed tortillas, an appetizer of piping hot pita bread, or any other popular menu items! This versatile unit is a great addition to any countertop, steaming and heating food to pure perfection for everyone to enjoy!

The steamer's stainless steel exterior ensures durability in virtually any commercial space, while its non-slip feet help keep it steady on your counter or work table as you work. It requires a 120V electrical connection for operation.
